DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 6 and 9-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Takemoto (US Patent 6,335,742 B1).

With respect to claims 1, 6, 10 and 11, Takemoto teaches:

a storage unit that stores folders, existing data files and keywords assigned to each existing data file (element 17 in Figure 1, column 6 lines 16-19);

an input unit by which a user enters an instruction to move a new data file to a folder (element 11 in Figure 1, column 5 lines 15-19); and

a processing unit (element 13 in Figure 1) that extracts the keywords assigned to the existing data files in the folder and assigns the extracted keywords to the new data file in response to the instruction (Figures 18-20, column 11 lines 13-52).

With respect to claim 2, Takemoto teaches wherein a name of the data file includes an extension showing the nature of the file (Figures 9 and 11, column 12 lines 37-39).

With respect to claim 9, Takemoto teaches further comprising an interface that receives the new data file (column 2 lines 31-37).

Allowable Subject Matter

3. Claims 3-5, 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
